*** Open Access and Licensing Options**

Through Author Select, the journal offers authors the option to choose open access for their published articles. By supporting both publication and archiving costs through payment of a USD 3500 fee, authors may instruct the journal to provide free online access to the published article, in perpetuity, to any online user. In addition, authors will retain copyright to their articles, which will be published under a Creative Commons Attribution 4.0 International (CC BY 4.0) license.

The Editor(s) and reviewers are not informed of an author's choice concerning open access; thus, the author's decision in this regard will have no impact on any aspect of the peer review process or on an Editor's ultimate decision regarding publication. The peer review process will proceed normally regardless of the author's choice of conventional publication or open access publication.

***Note:** When deciding on participation in Author Select, authors should note that payment of the open access fee does not cover charges for reprints. Authors who choose to order reprints will be invoiced separately.*

Do you wish to pay the Author Select fee (USD 3500) so that your manuscript, if accepted, is published with open access for all online readers?

○ **Yes**, we intend to pay the *Author Select* fee and will follow the link provided for payment after acceptance.

◉ **No**, we are not interested in the *Author Select* option and choose conventional publication instead.

Should your manuscript be accepted for publication, you will be contacted at acceptance with a confirmation of payment status as status may have changed.
